Dear Parents,

Re: Electronic Health Record Sharing System(eHRSS)

Electronic Health Record Sharing System (eHRSS) is records in secure electronic format containing health-related information of an individual. eHRSS allows healthcare providers access health information timely and improve health care quality.

In order to provide the most suitable care for students, our school join the eHRSS. Through this system, we can provide more efficient and quality- assured health care services and make referrals for your children when necessary.

Parents are invited to apply eHRSS for your child and share consents to school nurses. This allows schools nurses to get students latest health information. School nurse will also call parents to obtain authorization before logging into eHRSS in advance.

Please fill in the reply slip and return it to the school. If you have any enquiries, please call 2490 2955 to contact the school nurse Ms Kan/Li/Pak/Tsoi.

Yours sincerely,

Mr Wan Chun Ki
Principal
