Dear Parents,

Re: The Student Health Service and the School Dental Care Service in 2019/20

The Student Health Service and the School Dental Care Service of the Department of Health are now beginning to enroll primary school students for the school year 2019/20. Primary school students' parents only need to fill in one form to obtain both services for your children. However secondary school students' parents need to fill 2 separated forms to obtain both services for your children.

The objectives of Student Health Service are to promote and maintain the physical and psychological health of students. The scope of service covers body check, health assessment, individual counseling and health education.

The objectives of School Dental Care Service are to promote good oral hygiene and prevent common dental diseases.

Parents should return the completed application and consent form on or before 10th September, 2019 (Tue) with **HK\$30.00** to enroll in the School Dental Care Service.
