

Hong Kong Christian Service Pui Oi School

School Notice: 2020/21_004

1st September, 2020

Dear Parents,

Re: The Student Health Service and the School Dental Care Service in 2020/21

The Student Health Service and the School Dental Care Service of the Department of Health are now beginning to enroll primary school students for the school year 2020/21. Primary school students' parents only need to fill in one form to obtain both services for your children. However secondary school students' parents need to fill in 2 separated forms to obtain both services for your children.

The objectives of Student Health Service are to promote and maintain the physical and psychological health of students. The scope of service covers body checks, health assessment, individual counseling and health education.

Due to the COVID-19 pandemic, the Student Health Service only provides service to Form 1 students. If the COVID-19 pandemic improves, the Student Health Service Centre will provide services to other students with further notice.

The objectives of School Dental Care Service are to promote good oral hygiene and prevent common dental diseases.

Parents should return the completed application form on or before 10th September, 2020 (Thu). The application fee is \$30, and will be collected on or before the first day of school resumption.
